

Ophthalmic Technician

Ophthalmic technician required to perform a number of data collection functions as delegated by the physicians of the practice. We are seeking someone with strong communication and interpersonal skills who is also personable, empathetic, and well organized.

Responsibilities include obtaining patient histories, performing diagnostic tests such as OCT and visual fields, and acting as a scribe for the physicians. Certification experience is preferred, but we are willing to train the right candidate.

We offer a competitive salary package including paid holidays, health insurance and 401(K)
